- * **Blot spills immediately** with a clean, dry cloth; avoid rubbing, which can spread stains.
- * **Rotate occasionally** to ensure even wear and preserve the rug's colour and texture.
- * **Avoid prolonged sunlight exposure** to prevent fading.
- * **Professional cleaning** is recommended once a year to maintain softness, vibrancy, and shape.
- * For **natural fibre rugs**, keep away from damp areas and ensure good air circulation.
- * Use an **anti-slip** underlay to prevent slippage on hard floors
- * Remove all spills immediately. **Blot liquid spills** with a clean, dry, white cloth; work towards the centre of the spill. Do not rub or use abrasive cleaners. We recommend using a professional cleaning service for prolonged or difficult stains
